Course Title	Description	Prerequisites/Required Equipment
<p align="center">Fire Apparatus and Pump Maintenance 16 hours Saturday & Sunday</p>	<p>Covers pump theory, pump component familiarization and operational checks, basic pump maintenance and fire scene pumping procedures</p>	<ul style="list-style-type: none"> • Workers compensation insurance • Fire chief's approval/signature
<p align="center">S131 Wildland Training for Structural Firefighters 16 hours Saturday and Sunday</p>	<p>Designed to meet the training needs of the Firefighter Type 1 (FFT1) and/or Incident Commander Type 5 (ICT5). Topics include operational leadership, communications, LCES, and tactical decision-making.</p> <ul style="list-style-type: none"> • Identify position responsibilities and demonstrate the ability to apply principles of Operational Leadership found in the Incident Response Pocket Guide (IRPG), PMS 461. • Describe how to incorporate and maintain open lines of communication with appropriate personnel. • Identify Look Up, Down and Around indicators, and demonstrate the ability to apply the components of Lookouts, Communications, Escape Routes, and Safety Zones (LCES) as described in the IRPG. • Demonstrate the ability to apply tactical decision-making procedures. 	<ul style="list-style-type: none"> • Fire chief's approval/signature
<p align="center">Rope Rescue Awareness 20 hours Friday, Saturday and Sunday</p>	<p>This class is designed to give the student an awareness and basic skills for rope rescue at the low angle. This class covers identification of equipment and hardware, rope construction, knot tying, and low angle evacuation.</p>	<ul style="list-style-type: none"> • Workers compensation insurance • Fire chief's approval/signature

<p style="text-align: center;">Firefighter Essentials 16 hours 2 class options this year: Friday and Saturday (Class 1) OR Saturday and Sunday (Class 2)</p>	<p>SCBA presents the components, functions and safety features of SCBA and PPE. Limitations of the equipment are also presented. Proper methods of using and caring for equipment are presented. Environments that require SCBA use are reviewed and procedures for donning, doffing, inspecting, maintaining SCBAs and changing SCBA cylinders are presented. Class will include an exercise utilizing the Clearwater Fire Academy Confidence Trailer. The Trailer can be configured in a variety of ways to simulate actual firefighting conditions. Fire Behavior and Control: Emphasis on fire behavior and the phases a fire passes through as it grows, includes tactics to attack and extinguish fires. Hose Streams: Cover the application of water or foam streams and using different stream patterns in firefighting and properties of water and foam. Mayday: Identifies when and how and who should call a Mayday.</p>	<ul style="list-style-type: none"> • Workers compensation insurance • Fire chief's approval/signature • Each person in class will bring PPE and the SCBA unit that they will normally be using during an emergency and a spare bottle.
<p style="text-align: center;">Short Handed Fire Tactics 16 hours Saturday and Sunday</p>	<p>The focus in this class will be initial company operations with low to moderate staffing and is almost all hands-on. We know that staffing plays a role in the tactics we deploy. This class takes an in depth look at search techniques and how to strategically search with short staffing. The class will focus on the most utilized fire ground operations endured with low staffing levels. We will tie it all together with a self-survival module, most importantly how to recognize and prevent injury/death on the fire ground Hands-on training; students should be in good physical condition.</p>	<ul style="list-style-type: none"> • This class is offered to Officers and Interior Firefighters. • Successful completion of Firefighter Essentials • PPE, including SCBA and one extra tank. • Workers compensation insurance • Fire chief's approval/signature
<p style="text-align: center;">Art of Reading Smoke 8 hours Saturday OR Sunday</p>	<p>Often, smoke issuing from a building is the only clue available to predict fire behavior and the likelihood of a flashover or rapid-fire spread. First-arriving officers, Incident Commanders, and Safety Officers MUST know how to rapidly read smoke – this class explains the reading-smoke process</p>	<ul style="list-style-type: none"> • Fire chief's approval/signature

<p style="text-align: center;">Extrication 20 hours Friday, Saturday, and Sunday</p>	<p>Hands-on field presentation and practice of vehicle stabilization, extrication techniques using a wide range of basic tools through power hydraulic extrication tools.</p>	<p>PPE Workers compensation insurance Fire chief's approval/signature</p>
<p style="text-align: center;">Engineering and Rural Water Supply 16 hours Saturday and Sunday</p>	<p>Managing water supply for rural areas and how to utilize the resources that you have.</p>	<p>Fire chief's approval/signature</p>
<p style="text-align: center;">Structure Arson 16 hours Saturday and Sunday</p>	<p>The primary purpose of this course is to provide a consistent knowledge and skill base for the Structure Fire Origin and Cause Determination along with collection and preservation of Evidence. The concepts taught in this course will help you in performing at acceptable levels.</p>	<p>Fire chief's approval/signature</p>
<p style="text-align: center;">Traffic Control 4 hours Friday</p>	<p>This course will cover how to safely block out areas for firefighting that are by busy roadways.</p>	<p>Fire chief's approval/signature</p>
