# What is Idaho SkillStack®?

Idaho SkillStack® is a microcredential platform that allows educators to validate demonstrated skills, leading to industry-relevant digital badges.

How microcredentials and digital badges work:

EDUCATOR

Assess and validate

Educators assess, validate and track mastery of defined skills and concepts using SkillStack®.

Microcredentials are recognized credentials awarded to learners for mastery of defined career technical and academic skills or concepts defined by industry and educators. A digital badge is a visual representation of a microcredential that is embedded with data to verify a learner's skills and achievements.

LEARNER

Demonstrate and earn

Leading Others
Issued 1/25/2022
